PERSONAL STATEMENT

Software engineering student pursuing B.Tech in Computer Science with a focus on Software Product Engineering. Experienced in building full-stack applications using React.js, Node.js, Express.js, and MongoDB, with experience in authentication, REST APIs, dashboards, and databases. Seeking opportunities to contribute to real-world software products.

EDUCATION

Kalvium's UG program in CSE (Software Product Engineering) 2025–29 | Kalasalingam University

Campus: Kalasalingam University. Enrollment: B.Tech, Kalasalingam University.

Academic Performance: HSC / 12th — 86% | SSLC / 10th — 89.83%

PROJECTS

RouteMate — Capstone Project | [GitHub Repository](#)

- Developed a full-stack travel social platform for planning and sharing travel experiences. Implemented authenticated user workflows, travel content functionality, REST APIs, MongoDB persistence, and AI-powered integration.

Tech Stack: React.js, Next.js, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, OpenRouter API

Contribution: Worked across frontend and backend development, implemented JWT-based authentication, designed REST API workflows, integrated MongoDB using Mongoose, and connected the application with the OpenRouter API.

PharmaEasy Subscription System | [Live Deployment](#)

- Developed a subscription and auto-refill system for recurring medicine orders with automated scheduling, payment workflows, notifications, and dashboard management.

Tech Stack: React.js, Next.js, PostgreSQL, Prisma, REST APIs, Node.js

Contribution: Designed and developed subscription UI, implemented authentication, created subscription CRUD workflows, and worked on validation, delivery address and payment-method management. Developed REST APIs and Prisma database models for users and subscriptions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Frontend: HTML, CSS, React, React Router, Recharts

Backend: Node.js, Express.js, REST APIs, Axios

Databases: MongoDB, Mongoose, NoSQL

Authentication & Tools: JWT, Bcrypt, NextAuth.js, Git, GitHub, VS Code, Nodemailer

ACHIEVEMENTS & EXTRACURRICULARS

- Hackathons & Competitions:** Participated in coding challenges and problem-solving assignments focused on real-world use cases.
- Technical Contributions:** Built and maintained multiple academic projects using JavaScript, Node.js, Express.js, and MongoDB, sharing via GitHub repositories.
- Campus Engagement / Leadership:** Actively involved in collaborative peer learning, code reviews, and team-based project development at Kalvium.
- Personal Interests:** Exploring backend development, learning system design fundamentals, and improving problem-solving skills through coding practice.
